

# Drupal Community Tools

drupalize.*me*

The logo for drupalize.me features the word "drupalize" in a dark gray, lowercase, sans-serif font. The letter "i" has a small, light blue water droplet icon above it. To the right of "drupalize", the suffix ".me" is written in a light blue, lowercase, sans-serif font.

# Why?

"It's really the Drupal community and not so much the software that makes the Drupal project what it is. So fostering the Drupal community is actually more important than just managing the code base."

- Dries Buytaert

# Our tools

- ▶ Communication tools
  - Community websites
  - Issue queues
  - IRC
- ▶ Local development environment
  - AMP stack
  - Git

drupalize.*me*

The logo for drupalize.me features the word "drupalize" in a dark gray sans-serif font, followed by ".me" in a light blue font. A small blue water droplet icon is positioned above the dot in ".me".

# Community Websites

drupalize.*me*

The logo for drupalize.me features the word "drupalize" in a dark gray, lowercase, sans-serif font. A small, light blue water droplet icon is positioned above the letter "i". The suffix ".me" is in a lighter shade of blue and is written in a lowercase, italicized sans-serif font.

Come for the software, stay for the community

Drupal is an open source content management platform powering millions of websites and applications. It's built, used, and supported by an active and diverse community of people around the world.

## Why Choose Drupal?

Use Drupal to build everything from personal blogs to enterprise applications. Thousands of add-on modules and designs let you build any site you can imagine. Join us!

[Get Started with Drupal](#)

## Drupal Distributions

Distributions are a collection of pre-configured themes and modules for feature-rich web sites giving you a head start on building your site. Build your own online communities, media

## Sites Made with Drupal

The screenshot shows the homepage of the 9/11 Memorial website. At the top, there is a navigation bar with links to 'Newsroom', 'About Us', 'For 9/11 Families', 'Images + Videos', 'The Memo Blog', 'Museum Shop', and 'FAQ'. Below the navigation, there is a large banner image of the memorial site with the text 'Visit the 9/11 Memorial' and 'A national place of remembrance and honor to the nearly 3,000 victims, heroes, and children killed in the terror attacks of September 11, 2001 and February 26, 1993'. There are also links for 'Plan Your Visit', 'Memorial', 'Museum', 'Teach + Learn', and 'Donate + Get Involved'. Below the banner, there are several smaller sections: 'For 9/11 Families' (with a link to 'Reserve Free Visitor Pass'), 'Explore' (with a link to 'Memorial Guide'), 'Learn' (with a link to 'Recovery Timeline'), and 'Blog' (with a link to 'THE MEMO BLOG').

## Collaborate with the Drupal community

This site serves the [Drupal community](#) by providing a place for groups to organize, plan and work on projects. Real world local user groups (sometimes called meetups) and regional Drupalcamps in particular are encouraged to setup their online presence here.

## Documentation Team Leadership Change

Posted by [jhodgdon](#) on *July 18, 2012 at 5:54pm*

A little over 18 months ago, Ariane K. and I started our tenure as co-leaders of the Drupal Documentation Team. We spent a lot of time working on organization, design, processes, and tools to make it easier for Drupalists to contribute to and use Drupal documentation, and I'm very proud of the many improvements we were able to make (of course, with the help of lots of other contributors!) during that time.

# The Issue Queue

The community todo list

# Dreditor

- ▶ Makes the issue queue easier to work with
- ▶ Is a browser user script (not a module)
- ▶ <http://drupal.org/project/dreditor>

# IRC (Internet Relay Chat)

drupalize.*me*

The logo for drupalize.me features the word "drupalize" in a dark gray, lowercase, sans-serif font. A small, light blue water droplet icon is positioned above the letter "i". The suffix ".me" is in a lighter shade of blue.

# What you need to use IRC

- ▶ IRC client
- ▶ IRC Network to connect to
- ▶ Channels to join
- ▶ Nickname

# IRC Clients

- ▶ Web-based clients
  - [webchat.freenode.net](http://webchat.freenode.net)
- ▶ Application clients
  - Pidgin (Adium on Mac) - [pidgin.im](http://pidgin.im)
  - ChatZilla (Firefox extension)

# Networks

- ▶ Over 650 networks
- ▶ Most Open Source projects use the Freenode network
  - irc.freenode.net

# Channels

- ▶ Freenode has over 10,000 public channels
- ▶ The Drupal community has over 100 channels
  - [drupal.org/irc](http://drupal.org/irc)
- ▶ Drupal channel names all start with #

# Install an IRC client

- ▶ Pidgin (<http://pidgin.im>)
  - Mac OS X: Adium
  - Windows: Pidgin
  - Ubuntu: Pidgin shipped with it
  - Linux: see if there is a package

# Choose a nickname

- ▶ No authentication required to log in.
- ▶ Someone might already have the name you want
- ▶ Register your nick to preserve it.

# Join a channel

- ▶ Network: irc.freenode.net
- ▶ Channel: #drupalladder

# Notifications

- ▶ Ping!
- ▶ Use names in conversation to help track.
- ▶ Keep conversation in public channels.
- ▶ Private Messages (PM) should start with a request in a public channel.

# Local Dev Environment

Not just for programmers

# What?

- ▶ A Development Environment is a collection of procedures and tools for developing, testing and debugging an application or program.
- ▶ LOCAL means you can do this on your personal computer, not a remote web server.

# Why?

- ▶ Working on a live site is dangerous and stupid.
- ▶ You can use the tools you like best.
- ▶ You don't mess up other people working.
- ▶ You can work with insecure sites/code.
- ▶ You can work offline.
- ▶ Geek coolness factor.

# How?

- ▶ You need a web server with PHP:
  - Mac: MAMP
  - Windows: WAMP
  - Linux: packages in your distro
- ▶ A way to move your work
  - (S)FTP
  - Version control

# Web Servers

- ▶ Mac OS X: MAMP <http://mamp.info>
- ▶ Windows: WAMP <http://wampserver.com>
- ▶ Ubuntu: tasksel and lamp-server
  - sudo apt-get install tasksel
  - sudo tasksel install lamp-server

# Version Control and Git

drupalize.*me*

The logo for drupalize.me features the word "drupalize" in a dark grey, lowercase, sans-serif font. A small, light blue water droplet icon is positioned above the letter "i". The suffix ".me" is in a light blue, lowercase, sans-serif font.

# What?

- ▶ A way to keep track of changes
- ▶ Many different systems for this:
  - Centralized (CVS, SVN)
  - Distributed (Git, Bazaar, Mercurial)

# Why?

- ▶ Backup, backup, backup
- ▶ Merging multiple people's work
- ▶ Easily see changes/history
- ▶ Easily move/update code in many places

# Why Git?

The Drupal.org community uses it

<http://groups.drupal.org/node/48818>

# What we're doing

- ▶ Install a web server
- ▶ Install Git
- ▶ Clone and Install Drupal 8 with Git

# Groups

1. Do you have AMP, Git, and Drupal 8 installed?
2. Do you have AMP and Git installed?
3. Do you have AMP installed?

# AMP Stack

- ▶ Mac OS X: <http://mamp.info>
- ▶ Windows: <http://wampserver.com>
- ▶ Ubuntu: tasksel and lamp-server

# Git

<http://git-scm.com>

# Drupal 8

`git clone --branch 8.x http://git.drupal.org/project/drupal.git`
